Biography

# Youssef Khayali *Head of Integrated Dia & Healthcare Solutions (Solutions Program) in Solution Integration & Services with Roche Diagnostics*

Youssef Khayali assumed the newly-established role of Head of Integrated Dia & Healthcare Solutions Program in April 2019 which includes Roche Health Care Consulting, and Portfolio & Solution Integration. He and his team, in collaboration with other Roche Diagnostics Business Area teams, focus on how to deliver end-to-end value-creating Solutions, to the market and its customers.

Prior to this current role, Youssef was Lifecycle Leader WF&IT Solutions and accountable for the SIS business portfolio from July 2016, including Workflow products, middleware, business intelligence, point of care IT, Roche Healthcare Consulting and Roche Solution concept.

Since joining Roche in 2009, Youssef has worked across the company's pharmaceutical and diagnostics divisions in various roles including work on public policy, medical marketing and market access. Previously Youssef was also the General Manager RPVT for two years starting June 2015 in Stuttgart, Germany. RPVT (now named Roche Automation) is the market leader and gold standard in designing and manufacturing pre-analytical systems for the core lab.

He also held various positions in Roche Diagnostics including Program Office Head for Roche Diagnostics in Basel, Switzerland and Molecular, Tissue and Applied Science Head for Roche Diagnostics in the Netherlands. Youssef started his career with Roche as part of the company's Perspectives Program, where he completed rotations and projects in Austria, California (USA) and Singapore. Prior to Roche, Youssef held laboratory leadership positions with Avery Denisson and Dexcom in Europe, US and China.

Youssef has a Masters degree in Business Administration from Nyenrode Business University in 2008 in the Netherlands and a Bachelors degree in Medical Biochemistry in 2001 from Erasmus University of Rotterdam. Born in 1978, Youssef holds British, Moroccan and Dutch citizenship speaks several languages.
