Biography

Thomas Schinecker

President / Global Head of Centralised and Point of Care Solutions with Roche Diagnostics

Dr. Thomas Schinecker assumed the role of Global Head of Centralised and Point of Care Solutions (CPS) in January 2018 and is a member of the Diagnostics Leadership Team (DLT).

Since joining Hoffmann-La Roche AG in Basel, Switzerland in 2003, Thomas has developed in-depth diagnostics experience across the business.

Prior to his current role, Thomas was the General Manager of Roche Diagnostics Germany GmbH, in Mannheim, from July 2013. Since the beginning of 2011, Thomas also served as the President and CEO of Roche's 454 Life Sciences and Life Cycle Leader, Sequencing Solutions in Branford, USA. Previously, he held the role of General Manager for Roche Diagnostics Scandinavia AB in Stockholm, Sweden for three years starting in 2008.

Thomas was appointed the Head of Marketing and Sales at Roche Diagnostics GmbH in Vienna, Austria in 2005. He also held various positions in marketing and sales, as well as global business development of the Diagnostics Division, in several countries, as part of the Roche Talent Management Program.

Born in 1975, and holding both German and Austrian citizenship, Thomas studied Genetics at the University of Salzburg and Molecular Biology at New York University, USA, where he subsequently earned his doctorate in Molecular Biology. Thomas also completed research in the area of oncology at the New York University in the Department of Biology from 1999 to 2003.
