Biography

Christian Zaugg

Head of MSA Clinical Science in Centralised and Point of Care Solutions (CPS)

Christian Zaugg assumed the role of Head of MSA Clinical Science in Centralised and Point of Care Solutions (CPS) in 2015. He leads a team of medical experts across the key disease areas, and drives CPS' Medical Value Strategy. He co-chairs the Working Group Clinical Evidence at MedTech Europe.

Christian joined Roche in Rotkreuz as a Global Medical Leader in 2010 and took over the position of Head of Disease Area Strategy in 2013. Prior to Roche, he worked at Speedel and Averion (now ICON) in Drug and Device Development as Director of Pharmacology and Therapeutic Area Head Cardiovascular, respectively.

Christian undertook his training in pharmacology at the University of Basel, Switzerland, and at the University of California San Francisco, USA. He has a PhD in Biomedical Research and Pharmacology from the University of Basel, where he also teaches as Professor of Experimental Cardiology at the Faculties of Medicine and Science.
