

Roche Discovery Hub agenda

Tuesday 26 September

12:30 – 13:00

Unleashing the power of digital solutions in healthcare with navify®

Sarah Collins, Digital Business Manager

Tracy Lange, Product Manager – Workflow & IT solutions

Hear how **navify**®'s open ecosystem can help you unlock the full potential of your service and empower your organisation to stay ahead in today's rapidly evolving digital landscape.

13:30 – 14:00

Roche Tissue Diagnostics: Our commitment to patients throughout their diagnostic journey

Daniel Plews, Product Manager – Digital Pathology

An overview of the latest innovation from Roche Tissue Diagnostics, from new High Medical Value assays, digital solutions, non-gynae cyto and our translational technologies.

14:30 – 15:00

The future of integrated multidisciplinary labs and networks

Cara Livesey, Product Manager – Automation

Neil Goddard, Product Manager – Molecular Solutions

True integration of multidisciplinary labs and lab networks is now possible with the Integrated Core Laboratory from Roche. Come and hear how we deliver tailor-made services, systems, digital solutions and workflows - all designed to work together.

15:30 – 16:00

Creating value in your local community

Joanne McGrath, Director of Sales & Account Management

Gerard Harkin, Head of Social Value

Did you know that it is now mandatory for all procurements in NHS England to have a 10% weighting on Social Value - including Pathology Managed Service? Moving away from traditional Environmental, Social & Governance measures that mitigate negative impact, Social Value is about generating positive value in your local community. Come and find out more about how your Managed Service can directly contribute to your community, and the great partnerships Roche are creating to make this sustainable.

Roche Discovery Hub agenda

Wednesday 27 September

11:00 – 11:30

Creating value in your local community
