

# cobas® eplex PCR System

## *Designed with Patients in Mind*

The cobas® eplex PCR System is a compact, syndromic PCR diagnostic system that differentiates pathogens for timely patient treatment to prevent disease progression and the spread of infection.

-  Comprehensive multiplex testing
-  Random access and continuous access
-  Confirmatory results and epidemiology reporting
-  Compact, scalable design (3-24 bays)
-  Fully automated, walkaway flexibility
-  Bi-directional LIS connectivity
-  No routine maintenance required
-  Closed system minimizes contamination
