

LESS HASSLE.
MORE TIME.

CLARITY
AT A

CLICK

Roche Inventory Solution

Clarity at a click.

Roche Inventory Solution was designed to help modern laboratories simplify inventory management and make more time for the work that matters most.

Common inventory challenges like stock outs, surplus inventory, product expiration and expensive rush orders directly impact your bottom line.

By eliminating time-consuming manual tracking and simplifying reorders, you can spend less time in the stock room and more time in the lab.

Roche Inventory Solution

Simplicity

The user-friendly handheld lets you check products in or out with the click of a button.

- Insights start at the point-of-scan, showing you expiry dates and quantity, and giving you the option to adjust preorder values

The Web-based application provides real-time updates on your current inventory.

- An intuitive user interface ensures you can easily obtain the information you need to run your lab, your way

Roche Inventory Solution

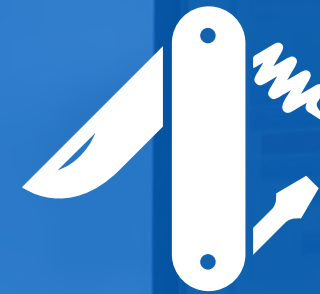

Transparency

Optimise your inventory management and gain important insights across your entire organisation.

- Know your true stock levels and the numbers behind them with real-time updates
- On-demand reporting ensures accurate inventory information is always at your fingertips

Staying informed and in control is as easy as scanning a barcode.

Universal

Roche Inventory Solution is the ideal fit for any lab, regardless of size or complexity.

- Truly comprehensive solution that works with all products from any vendor
- Leverages industry-standard technology that's simple and familiar
- 24/7 access from any desktop, anywhere in the world, using the Web-based application

Roche

Roche Inventory Solution

Peace of Mind

Confidence starts with knowing you're never out of stock.

- Product expiration alerts and automatic reorders help prevent stock outs and preserve resources
- Ordering according to predefined values reduces product waste and ensures you have the right amount of product
- Accurate tracking minimizes the need for urgent shipments and reduces error

Roche Inventory Solution

Transforming inventory management together

Roche works side by side with you to ensure our solution meets your individual needs.

- Sharing expertise in inventory processes and storage allocation to enable an ideal setup
- Facilitating seamless integration into your lab's existing infrastructure
- Helping define appropriate stock-level thresholds for automated ordering
- Maximising the value of your investment as your laboratory changes and grows
