Roche supports the initiative UNAIDS 90-90-90 treatment target.

“...at least 73% of all people living with HIV worldwide will be virally suppressed.”

LIMITATIONS TO MEETING THE THIRD 90

Access to Testing

Not all people live close to a major health clinic.

The infrastructure is not in place to allow for the required sample transportation.

Those living in rural settings have blood taken in small clinics.

Alternative solutions are required.

REDEFINING THE REACH OF RELIABLE TESTING

When the three part target is achieved, at least 73% of all people living with HIV worldwide will be virally suppressed.
