

Roche DiaLog

An intelligent digital workspace upgraded for you

The new and improved DiaLog portal delivers a highly intuitive and seamless user experience. With 24/7 access to personalized information, insights, and support, this flexible digital workspace empowers you to optimize lab performance and ensure greater business continuity.

More intuitive than ever before

Each new feature on the upgraded DiaLog portal is designed to meet your real world needs and improve your experience:

- Faster, simpler navigation
- More user-friendly interfaces
- Better mobile experience

Empowering your everyday in new ways

The new look DiaLog features four key customer-centered upgrades:

Better look and feel

New header contains eServices for better usability

Learn more buttons

Detailed descriptions for all available eServices

9-dot icon navigation

An intuitive navigation for easily switching between eServices

Customizable display

Modify eService display to view as a grid or a list

Everything you need, all in one place

DiaLog's collection of eServices provides powerful solutions for all your needs from routine operational and administrative tasks to unexpected challenges. Gain valuable business insights, train staff, solve instrument issues, manage orders, and more with your all-in-one digital support solution.
