

eLabDoc

Find what you need when you need it

For your daily work accessing the right product information can be challenging:

- Where can I find how to use a product?
- How can I access a package insert?
- Is there a way to search what is available?

Get the power of a simple search and download function for product related documents

- **Instant access:**
Relevant product information such as safety data sheets, instructions for use, method sheets and more are easily available anytime.
- **Set favorites:**
Store frequently used systems, assays and lots, helping you get the information you need even quicker.
- **Pro-active notifications:**
Subscribe to documents and receive email alerts when a new version of a document becomes available.

Run your lab more efficiently

Easy and instant access to relevant up-to-date product information

The screenshot shows the Roche DiaLog web application interface. At the top, there are navigation tabs: 'New entries', 'Catalog search', 'My product information', and 'Administration'. A search bar is located on the right side of the header. Below the header, the main content area displays search results for 'Cat no. 04687787190: HBsAg II (3)'. On the left, there is a 'Refine selection' sidebar with filters for 'Languages' (English), 'Document types' (Method Sheet), and 'Systems'. The main results table lists three entries, each with a 'Download' icon and a 'Selected' button. Callout boxes point to various features: 'New updates' and 'Product navigation' point to the top navigation; 'Keyword Search' points to the search bar; 'Saved searches' points to the star icon; 'Download center' points to the download icons; and 'Preferences' points to the user profile icon.

Simplify relevant everyday tasks

- Increase flexibility and save time
- Up-to-date product information available any time
- Information about new or modified technical documents according to your preferences

*Everything you need,
all in one place*
