

Meet your New Chromogens!

DISCOVERY HRP-Red, Yellow and Blue!

Ready to Use

no mixing!

More Multiplexing Options

complementary to other chromogens

Fully Automated

Optimized for DISCOVERY Detection

EXCELLENT

for IHC or ISH!

The only

Red, Yellow and Blue chromogens on the market that are stable in ethanol and xylene.

What did our Beta Testers say?

“This Yellow HRP kit **works very well**. The color is distinguished with Hematoxylin counter staining. The staining patterns were **sharper and clearer**.”

“The blue signal obtained from our IHC trial in our brain sections stained for a cytoskeleton protein was quite **strong and clear**.”

“We tried a single staining and multiplexing and the results were very good. The red signal **was strong and very clear**.”

“Really **crisp clean staining**. Nice bright red colour. No leeching of colour.”

“**Nice crisp staining** both nuclear and membranous.”

“I really like this RED HRP kit. It has **solid, clean IHC** and more striking stain.”
