Exporting Information
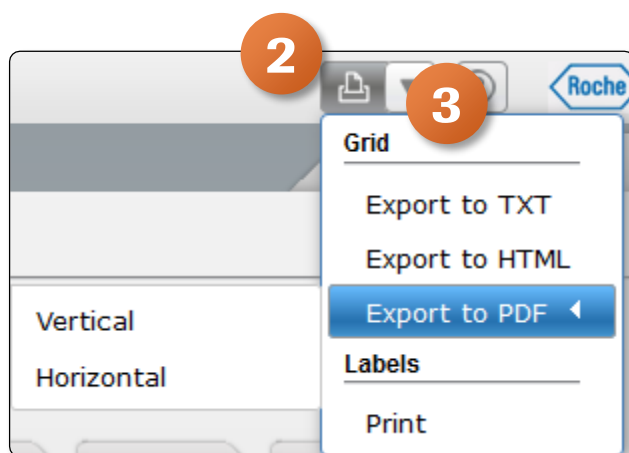

1. Once logged into the **cobas® infinity** software, navigate to desired screen
2. From the Overview menu bar, select the [🖨️ ▼] drop-down list
3. From the Grid group box, choose one of the following options:
   - Export to TXT: produce a text file using the current browser
   - Export to HTML: produce a web file using the current browser
   - Export to PDF in Vertical or Horizontal format: produce a PDF file using the current PDF viewer

4. Once the report is generated, right click to see options. Select **Save Page As** to save this document
5. The [🖨️] button performs the last selected action. To print tables again, click print button or press F5
