

Modifying Validation Screen

To begin you will need to figure out the exact name of the Work area you will be modifying

- 1. Once logged into the cobas® infinity software, select the Main tab
- 2. Click on Menu
- 3. Navigate to Work areas
- 4. This will show you a list of the Work area's for your lab

Please note: The Work area names are customized per laboratory. What you see in our example won't necessarily reflect the names of your Work areas. The above navigation will help you see the names of all Work areas you have created.

Roche

Once the Work Area name has been confirmed, the next step is to confirm the exact names of the Validation screen

- 5. Navigate to the Administration tab
- 6. Click on Menu
- 7. Navigate to Work areas
- 8. Select Entries

- 8. Double click on the desired Work area
- 9. This populates the bottom portion of the screen. Click on the Validation tab

Modifying Validation Screen

Editing the Validation Screen

Now that we have the exact names of the screen, we can begin modification

- 1. Navigate to the Administration tab
- 2. Click on Menu
- 3. Select General
- 4. Click on Configurable screens

- 5. Locate the screen name that we identified in previous exercise in the description column
- 6. You may need to use the arrows to see more options
- 7. Click on Configure

Version 2.5.0.3490 (19/12/2018)							Tue 06/18/2019

15. Start by selecting the Screen area drop-down menu to determine what you would like to change

Header		
Header	Width	
Supermaster	= 100	
Center	✓ Sorting order	

Screen area * Header	Field type*
Label *	Patient demographic Order demographic

- 16. Next, select the **Field type** from the drop down-menu
- 17. Select the **Field** from the drop-down menu. Options you will find here are based on your particular configuration

Please Note: If you are looking for something specific that isn't showing up in this drop down menu, please work with Roche and possibly your LIS vendor to update theh host interface

Screen area *	Field type *	Field *
Header 🔻	Patient demographic	
Label *	Width	Date of birth
	100	Ethnicity
Sort. priority	Sorting order	First name
	T	Last name
		Middle name V

- 18. Add Label name. This will appear at the top of the column
- 19. You have the option to choose **Ascending or Descending** from the **Sorting order** drop-down menu. The default priority is left to right

Screen area *	Field type *	Field *
