Overview Screen Navigation

1

General Lab Home Screen

- The Overview bar is visible no matter where you are in **cobas**[®] infinity software. Clicking on Overview will help you navigate back to this screen
- 2. Alarms are visible in Overview bar as well as **Notifications** section. You have the option to view these in Descending or Ascending severity or Descending or Ascending Date and Time
 - Red: high-severity notification
 - Yellow: medium-severity notification
 - Gray: low-severity notification
- 3. The **Favorites** section can be configured by user and is visible from the Overview screen for easy navigation to commonly used screens
- 4. The **Charts** portion of the Overview screen shows information about the **cobas**[®] **infinity** software in this example
- 5. The tabs at the bottom of the screen allow you to access different areas of the software

Overview Screen Navigation

Overview Bar Navigation

- The Software module drop-down menu will show all software modules being used in the cobas[®] infinity application. Selecting each module from the list will give you different menu options in the Main, Administration and Monitoring tabs
 - Emergency Lab: Not actively used, just runs in the background
 - Lab Flow: Workflow for Automation
 - General Lab: Most time will be spent here

Please note: If you log off the software and log on again, the last module used is displayed

- 2. The **Profiles** drop-down menu will show the multiple profiles for one user
 - Your user ID can be associated with more than one profile with different access and work rights. You can easily switch from one profile to another to carry out some tasks in the software
